

Data Analyst Studentship

Forest Green Rovers FC in partnership with Hartpury University are offering a 2-year work placement alongside a fully funded Part-Time MSc. in Applied Performance Analysis in Sport.

Description

The bursary will cover all of the MSc course fee costs and in exchange, the successful applicant will work within our first team environment at FGR. The successful candidate will be working closely with both the 1st Team's match and recruitment analysts and Sports Science departments to manage, analyse and manipulate data collected from GPS, fitness testing and player statistics. The successful candidate will also assist in finding trends for both FGR and league wide using market leading data providers. This is a fantastic opportunity to gain invaluable experience across both Performance Analysis and Sport Science departments in a recruitment and data analyst role.

Studentship Placement Overview

Time: It is anticipated that the placement will require the successful candidate to be available for the equivalent of 2 training days per week and match day. It should be noted that the nature of the placement is likely to require attendance during evenings, at weekends and bank holidays.

Location: The candidate will be based predominantly at the Hartpury University and Forest Green Rovers. It may also include travel to other sites within England

Duration: The studentship will start September 2022 and last for a maximum of two years.

Main Roles & Responsibilities:

- Supporting the analysis department with the pre and post-match analysis reporting from data provided from statistical provider- giving insight on seasonal trends of both team and player.
- Providing league analysis and comparisons against FGR.
- Support the Analysis team with filming of games and training.
- Ad- Hoc reporting for director of football on recruitment needs.

Requirements

- Be a competent user of Microsoft Excel, Tableau and Microsoft Word
- Have a passion to work in professional football.
- Have strong communication skills.
- Passionate about problem solving through the application of data and driven to innovate and implement new ideas.
- Must be able to commit to the position for the entire 2022/23 season.
- Enrolling onto an MSc in Applied Performance Analysis in Sport at Hartpury University
- Previous experience working within a professional sporting environment (Desirable)
- A DBS check will be conducted by Forest Green Rovers on the acceptance of the role.
