

HARTPURY
AGRICULTURE

AGRI·TECH

FOR YOU.
FOR YOUR FARM.
FOR YOUR FUTURE.

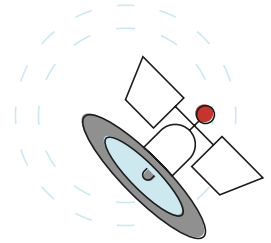

What sets
us apart?

We combine our agriculture and tech know-how to support farmers, agri-businesses and professionals.

Our services are completely impartial, enabling you to make **confident decisions** using data, digital information and different technologies.

SO, WHAT CAN

WE HELP WITH...?

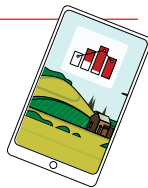

Technology choices

Pre-and post-purchase guidance

Looking to understand what technology is out there? Or, wanting to get more out of what you already have? We provide bespoke guidance on technology choices to individuals and businesses.

Connectivity

Know your networks

Internet connectivity can underpin the use of different technologies. Support from us can help you implement and understand your options for better connectivity as well as consider the benefits this can bring to the way you work.

Troubleshooting

Diagnostics and solutions

Having trouble with your technology or gadgets? Struggling to find the information you need? Talk to us. We'll help you resolve the issue, or we'll probably know someone who can!

Forward planning

Consultations and action plans

Data can be overwhelming, but its value lies in the insights and decisions it unlocks. Let us help you discover new potential with our bespoke consultations and action plans.

Skills and learning

Online and in-person training and demonstrations

Looking to upskill and understand more about different technologies? Whether online or in-person we deliver a wide range of courses, workshops and events to help you take your knowledge to new heights.

Growing your network

A community for everyone

Join thousands of members in our growing community of agriculturalists and service providers. Share knowledge and experience in simple, farming-friendly language - no tech skills needed!

LET'S GROW STRONGER, TOGETHER

HARTPURY
UNIVERSITY
AND COLLEGE

Kickstart a conversation with one of our experts!
